SUBJECT INDEX*

A

Abdominal aorta, occlusion of, aneurysm and, "redo" surgery after operations for (Crawford, Manning, and Kelly), 41
Acrylate glue, pancreatic duct obstruction with: new method for producing pancreatic exocrine atrophy (Little, Lauer, and Hogg), 243
Acute coronary insufficiency (letter to the editors) (Bronstein), 730
Adrenergic mechanisms in hepatic arterial circulation of baboons (Swan et al.), 326
Alcohol, effect of, on release of secretin and pancreatic secretion (Llanos et al.), 661
Allograft(s), rat parathyroid, prolongation of survival of, by enhancing serum and tissue culture (Starling, Fidler, and Corry), 668
  renal, recipients genotypically identical for HLA, forty-five living related, long-term results with (Seigler et al.), 274
    success, host presensitization and, at a single institution: first transplants (Ferguson et al.), 139
Alpha$_1$-antitrypsin deficiency, liver replacement for (Putnam et al.), 258
Amino acids, venous plasma free, effect of surgical operation on (Dale et al.), 295
Aneurysm(s), multiple aortic, due to *Brucella suis*, surgical resection of (Fudge et al.), 236
  mycotic cervical carotid (Howell, Baburao, and Graziano), 357
  and occlusion of abdominal aorta, "redo" surgery after operations for (Crawford, Manning, and Kelly), 41
  popliteal, B-scan ultrasound in diagnosis of (Scott, Scott, and Sanders), 436
  traumatic false, and arteriovenous fistula of profunda femoris artery: surgical management and review of literature (Loubeau and Bahnson), 222
Angiographic demonstration and transcatheter embolic control of post-traumatic intercostal arterial hemorrhage (Barbaric and Luka), 409
Animal model for human osteosarcoma (Singh et al.), 168
Antibiotic(s), effect of, on cell-mediated immunity (Munster et al.), 692
  prophylaxis in biliary tract operations, better definition of indications for (editorial) (Polk), 478
  selecting patients requiring, in biliary surgery, by immediate gram stains of bile at operation (McLeish et al.), 473
Antibody, antivascular endothelial cell — its role in transplantation (Cerilli et al.), 132
Antigens, transplantation, new assay for T-cell mediated immunity to (Ramey et al.), 640
Antivascular endothelial cell antibody — its role in transplantation (Cerilli et al.), 132
Aorta abdominal, occlusion of, aneurysm and, "redo" surgery after operations for (Crawford, Manning, and Kelly), 41
  human, normal and atherosclerotic, geometric comparison of aortic bifurcation prostheses to, and clinical trial of vertical seamed bifurcation prothesis (Sauvage et al.), 22
Aortic aneurysms, multiple, due to *Brucella suis*, surgical resection of (Fudge et al.), 236
  bifurcation grafts, infected (letter to the editors) (Baker and Baker), 731; reply (Becker), 731
    prostheses to normal and atherosclerotic human aorta, geometric comparison of, and clinical trial of vertical seamed bifurcation prosthesis (Sauvage et al.), 22
Aortofemoral arterial grafting, life expectance following (Malone, Moore, and Goldstone), 551
Aortoiliac reconstruction, carotid bruit as risk factor in (Carney et al.), 567
Aortorenal vein fistula, traumatic: repair using total circulatory arrest (Griffin et al.), 480
Autotransfusion, intraoperative, and air embolism (letter to the editors) (Deysine), 729; reply (Glover), 729
Arterial bypass, femoropopliteal, autogenous veins and velour Dacron in (Stephen et al.), 314
  circulation, hepatic, of baboons, adrenergic mechanisms in (Swan et al.), 326
  endothelium, serial changes in, following ischemia and perfusion (Fonkalsrud et al.), 527
  grafting, aortofemoral, life expectance following (Malone, Moore, and Goldstone), 551
  hemorrhage, post-traumatic intercostal, angiographic demonstration and transcatheter embolic control of (Barbaric and Luka), 409
  prosthesis, failure of knitted Dacron as (Blumenberg and Gelfand), 493
  trauma, peripheral, selective intra-arterial tolazoline infusion in (Dickerman et al.), 605
Arteriosclerosis, graft, control of, in human heart transplant recipients (Griepp et al.), 262
Arteriovenous dialysis fistulas, blood flow measurements in (Anderson et al.), 459
  fistula, postlaminectomy (Hildreth and Turcke), 512
    traumatic false aneurysm and, of profunda femoris artery: surgical management and review of literature (Loubeau and Bahnson), 222
Artery. (*See* specific artery)
Ascites, pancreatic: diagnosis of leakage site by endoscopic pancreatography (Rawlings, Bynum, and Pasternak), 363
  value of endoscopic retrograde pancreatography in management of (Levine et al.), 360
Aspergillus-induced small bowel obstruction in leukemic newborn (Raaf et al.), 111
Atherosclerotic, normal and, human aorta, geometric comparison of aortic bifurcation prostheses to, and clinical trial of vertical seamed bifurcation prothesis (Sauvage et al.), 22
Autogenous veins and velour Dacron in femoropopliteal arterial bypass (Stephen et al.), 314
Autografts and frozen, irradiated homografts, comparison of, in canine femoral venous reconstruction (Giordano et al.), 100
Axillobilateral femoral and axillounilateral femoral grafts, comparison of late patency rates of (LoGerfo et al.), 33
Axillopectoral muscle (Langer's axillary arch): cause of axillary vein obstruction (Sachatello), 610
Axillounilateral femoral and axillobilateral femoral grafts, comparison of late patency rates of (LoGerfo et al.), 33

B

B-scan ultrasound in diagnosis of popliteal aneurysms (Scott, Scott, and Sanders), 436
Baboons, adrenergic mechanisms in hepatic arterial circulation of (Swan et al.), 326
Bacteremia, hepatic reticuloendothelial protection against, in experimental hemorrhagic shock (Pardy, Spencer, and Dudley), 193
  prolonged, effect of, on leukocyte bactericidal function (Postel, Furtado, and Schloerb), 180
Bactericidal function, leukocyte, effect of prolonged bacteremia on (Postel, Furtado, and Schloerb), 180
Bifurcation grafts, infected aortic (letter to the editors) (Baker and Baker), 731; reply (Becker), 731
  prosthesis(es), aortic, geometric comparison of, and clinical trial of vertical seamed bifurcation prothesis (Sauvage et al.), 22
    vertical seamed, clinical trial of, geometric comparison of aortic bifurcation prostheses to normal and atherosclerotic human aorta (Sauvage et al.), 22

*January, pp 1-120; February, pp 121-242; March, pp 243-366; April, pp 367-486; May, pp 487-612; June, pp 613-746.

Bilateral renal artery stenosis and renovascular hypertension (Dean et al.), 53
Bile ducts, extrahepatic, malignant tumors of (Andersson, Bergdahl, and van der Linden), 198
-fat relationships in gastric secretory inhibition and bile flow stimulation (Kihl, Boden, and Landor), 386
flow stimulation, gastric secretory inhibition and, bile-fat relationships in (Kihl, Boden, and Landor), 386
human, influence of biliary disease on excretion of cefazolin in (McLeish et al.), 426
immediate gram stains of, at operation, selecting patients requiring antibiotics in biliary surgery by (McLeish et al.), 473
Biliary cast syndrome and techniques of secondary duct repair, with special reference to: biliary complications after liver transplantation (Starzl et al.), 212
complications after liver transplantation: with special reference to biliary cast syndrome and techniques of secondary duct repair (Starzl et al.), 212
disease, influence of, on excretion of cefazolin in human bile (McLeish et al.), 426
microflora, identification of presence and type of, by immediate gram stains (Keighley et al.), 469
surgery, selecting patients requiring antibiotics in, by immediate gram stains of bile at operation (McLeish et al.), 473
tract operations, better definition of indications for antibiotic prophylaxis in (editorial) (Polk), 478
Blood flow impairment, over-all, in ischemic extremity, index of: pulse-reappearance time (Fronek, Coel, and Bernstein), 376
measurements in arteriovenous dialysis fistulas (Anderson et al.), 459
upper gastrointestinal, changes of, after hemorrhage in rabbits (Manabe, Suzuki, and Honjo), 446
Bone fracture, experimental, changes in pulmonary lipoprotein lipase activity in dogs following. New conept on pathogenesis of post-traumatic impairment of lung surfactant synthesis and accumulation of fat in lung vessels (Lehr, Niedermüller, and Hofecker), 521
Bowel resection, massive small, in dogs, effect of proximal gastric vagotomy on gastric acid hypersecretion and hypergastrinemia after (Wolfe et al.), 627
small, obstruction, aspergillus-induced, in leukemic newborn (Raaf et al.), 111
Brain death, legal definition of, and consent to remove cadaver organs, progress in (Stuart), 68
Breast cancer, radiation-induced fibrosarcoma following treatment for (Adam and Reif), 421
melanoma of skin of: therapeutic considerations based on six cases (Jochimsen et al.), 583
Brucella suis, surgical resection of multiple aortic aneurysms due to (Fudge et al.), 236
Bruit, carotid, as risk factor in aortoiliac reconstruction (Carney et al.), 567
Bypass. (*See* specific bypass)

C

Cadaver organs, consent to remove, legal definition of brain death and, progress in (Stuart), 68
Cadaveric pancreatic islets, human, tissue culture isolation and preservation of (Weber et al.), 270
Cancer, breast, radiation-induced fibrosarcoma following treatment for (Adam and Reif), 421
Canine enterogastrone mechanism, effect of vagotomy on (Kaminski and Ruwart), 80
femoral venous reconstruction, comparison of autografts and frozen, irradiated homografts in canine femoral venous reconstruction (Giordano et al.), 100
Cardiodynamic effects, adverse, of vasopressin not avoided by selective intra-arterial administration (Sirinek, Thomford, and Pace), 723
Cardioplegia, ischemic normotheric, physiologic observations of heart six months after (Herman et al.), 462
without fibrillation or defibrillation in cardiac surgery (Molina et al.), 619
Cardiopulmonary bypass, effects of methylprednisolone on coronary blood flow and myocardial metabolism during (Vinas et al.), 646
Carotid aneurysm, mycotic cervical (Howell, Baburao, and Graziano), 357
arteries, internal, fibromuscular dysplasia of (Collins et al.), 105
bruit as risk factor in aortoiliac reconstruction (Carney et al.), 567
Cefazolin, influence of biliary disease on excretion of, in human bile (McLeish et al.), 426
Cell(s) antibody, antivascular endothelial—its role in transplantation (Cerilli et al.), 132
-mediated immunity, effect of antiobiotics on (Munster et al.), 692
membrane, skeletal muscle, potential effect of endotoxin shock on (Gibson et al.), 571
xenografted transplanted (letter to the editors) (Gans), 731
Cephalic vein cross-over bypass (letter to the editors) (Witte), 730; reply (Hashmonai), 730
Cervical carotid aneurysm, mycotic (Howell, Baburao, and Graziano), 357
esophagus, reconstruction of, by transplantation and revascularization of small intestinal segment: ten year follow-up (Uemichi et al.), 343
Cholecystogram, false-normal oral (Fiegenschuh and Loughry), 239
(editorial) (Cole), 121
Cholesterol, increased hepatic synthesis of, following jejunoileal bypass (Grosfeld et al.), 701
Circulation, human pulmonary, fate of prostaglandins E_1 and A_1 in (Hammond et al.), 716
Circulatory arrest, total, repair using: traumatic aortorenal vein fistula (Griffin et al.), 480
Coagulation factors, relationship of, to clinical complications of acute pancreatitis (Ranson et al.), 502
Colloid, crystalloid vs, in etiology of pulmonary failure after trauma: randomized trail in man (Lowe et al.), 676
osmotic pressure, perfusion pressure and, endothelial damage of pulsatile renal preservation and its relationship to (Cerra et al.), 534
Colon and rectum, malakoplakia of: report of case and review of literature (Joyeuse et al.), 189
Computer-based intensive care of patients following open heart and major vascular surgery, three years' experience with (Robicsek et al.), 12
Coronary artery disease, myocardial revascularization prior to subsequent major surgery in patients with (McCollum et al.), 302
insufficiency, acute (letter to the editors) (Bronstein), 730
Cross-over bypass, cephalic vein (letter to the editors) (Witte), 730; reply (Hashmonai), 730
Crystalloid vs colloid in etiology of pulmonary failure after trauma: randomized trial in man (Lowe et al.), 676
Cushing, Harvey: "From tallow dip to television" (Stanton and Thomson), 284
(editorial) (Schwartz), 351

D

Dacron, knitted, failure of, as arterial prosthesis (Blumenberg and Gelfand), 493
velour, autogenous veins and, in femoropopliteal arterial bypass (Stephen et al.), 314
Death, brain, legal definition of, and consent to remove cadaver organs, progress in (Stuart), 68
Defibrillation, fibrillation or, cardioplegia without, in cardiac surgery (Molina et al.), 619
Dialysis fistulas, arteriovenous, blood flow measurements in (Anderson et al.), 459
Dogs, changes in pulmonary lipoprotein lipase activity in, following experimental bone fracture. New concept on pathogenesis of post-traumatic impairment of lung surfactant synthesis and accumulation of fat in lung vessels (Lehr, Niedermüller, and Hofecker), 521
effect of proximal gastric vagotomy on gastric acid hypersecretion and hypergastrinemia after small bowel resection in (Wolf et al.), 627
hypoxemic, with right-to-left cardiac shunt, effect of sodium orthoiodobenzoate on oxygen transport and erythropoiesis in (Litwin, Skogen, and Laver), 633
rate of disappearance of circulating endogenous gastrin in (Villar et al.), 404
Dragstedt, Lester Reynold—recollections and reminiscences (Landor), 442

Duct repair, secondary, techniques of, with special reference to biliary cast syndrome and: biliary complications after liver transplantation (Starzl et al.), 212
DVT or not DVT? (letter to editors) (Bergan), 116; reply (O'Donnell and Abbott), 119
(letter to editors) (Hume), 118; reply (O'Donnell and Abbott), 119
(letter to editors) (Strandness), 117; reply (O'Donnell and Abbott), 119
(letter to editors) (Thomas), 117; reply (O'Donnell and Abbott), 119
Dysplasia, fibromuscular, arterial microemboli and, of external iliac arteries (Mehigan and Stoney), 484
of internal carotid arteries (Collins et al.), 105

E

Education, surgical continuing medical: format and impact (Greenburg, Bruegel, and Peskin), 708
Embolism, air, intraoperative autotransfusion and (letter to the editors) (Deysine), 729; reply (Glover), 729
artery, of upper limbs (Savelyev, Zatevakhin, and Stepanov), 367
Endogenous gastrin, circulating, in dogs, rate of disappearance of (Villar et al.), 404
Endoscopic pancreatography, diagnosis of leakage site by: pancreatic ascites (Rawlings, Bynum, and Pasternak), 363
retrograde pancreatography, value of, in management of pancreatic ascites (Levine et al.), 360
Endothelial cell antibody, antivascular—its role in transplantation (Cerilli et al.), 132
damage of pulsatile renal preservation and its relationship to perfusion pressure and colloid osmotic pressure (Cerra et al.), 534
Endothelium, arterial, serial changes in, following ischemia and perfusion (Fonkalsrud et al.), 527
Endotoxin shock, effect of, on skeletal muscle cell membrane potential (Gibson et al.), 571
Enteric, paraprosthetic-, fistula (O'Mara and Imbembo), 556
Enterogastrone mechanism, canine, effect of vagotomy on (Kaminski and Ruwart), 80
Enteropathy, protein-losing, complicating Mustard procedure (Krueger, Burney, and Ferlic), 305
Ergotism, mesenteric and peripheral vascular ischemia secondary to (Greene, Ariyna, and Stansel), 176
Erythropoiesis, oxygen transport and, effect of sodium orthoiodobenzoate on, in hypoxemic dogs with right-to-left cardiac shunt (Litwin, Skogen, and Laver), 633
Esophageal lye strictures, experimental, morphologic aspects of. II. Effect of steroid hormones, bougienage, and induced lathyrism on acute lye burns (Butler et al.), 431
Esophagus, cervical, reconstruction of, by transplantation and revascularization of small intestinal segment: ten year follow-up (Uemichi et al.), 343
Exocrine, pancreatic, atrophy, new method for producing: pancreatic duct obstruction with acrylate glue (Little, Lauer, and Hogg), 243
Extrahepatic bile ducts, malignant tumors of (Andersson, Bergdahl, and van der Linden), 198
Extremity, lower, diseases of veins of, John Homans' impact on, with special reference to deep thrombophlebitis and postthrombotic syndrome with ulceration (Linton), 1

F

False aneurysm, traumatic, and arteriovenous fistula of profunda femoris artery: surgical management and review of literature (Loubeau and Bahnson), 222
-normal oral cholecystogram (Fiegenschuh and Loughry), 239 (editorial) (Cole), 121
Fat, bile-, relationships in gastric secretory inhibition and bile flow stimulation (Kihl, Boden, and Landor), 386
Femoral artery, lateral route for extra-anatomical bypass of (Leather and Karmody), 307
axillobilateral, and axillounilateral femoral grafts, comparison of late patency rates of (LoGerfo et al.), 33
axillounilateral, and axillobilateral femoral grafts, comparison of late patency rates of (LoGerfo et al.), 33
venous reconstruction, canine, comparison of autografts and frozen, irradiated homografts in (Giordano et al.), 100
Femoropopliteal arterial bypass, autogenous veins and velour Dacron in (Stephen et al.), 314
bypass for limb salvage (Ramsburgh et al.), 453
Fibrillation or defibrillation, cardioplegia without, in cardiac surgery (Molina et al.), 619
Fibromuscular dysplasia, arterial microemboli and, of external iliac arteries (Mehigan and Stoney), 484
of internal carotid arteries (Collins et al.), 105
Fibrosarcoma, radiation-induced, following treatment for breast cancer (Adam and Reif), 421
Fibrosis, retroperitoneal, clinical significance of (Koep and Zuidema), 250
Fistula. (*See* specific fistula)

G

Gastric secretion, pre- and postvagotomy basal, and gastrin, effect of intraduodenal acid on (Linares et al.), 392
secretory inhibition and bile flow stimulation, bile-fat relationships in Kihl, Boden, and Landor), 386
Gastrin, circulating endogenous, in dogs, rate of disappearance of (Villar et al.), 404
pre- and postvagotomy basal gastric secretion and, effect of intraduodenal acid on (Linares et al.), 392
Gastrointestinal blood flow, upper, changes of, after hemorrhage in rabbits (Manabe, Suzuki, and Honjo), 446
Geometric comparison of aortic bifurcation prostheses to normal and atherosclerotic human aorta, and clinical trial of vertical seamed bifurcation prosthesis (Sauvage et al.), 22
Glue, acrylate, pancreatic duct obstruction with: new method for producing pancreatic exocrine atrophy (Little, Lauer, and Hogg), 243
Graft(s), axillobilateral femoral and axillounilateral femoral, comparison of late patency rates of (LoGerfo et al.), 33
infected aortic bifurcation (letter to the editors) (Baker and Baker), 731; reply (Becker), 731
survival rate, influence of presensitization on (Salvatierra et al.), 146
Gram stains, immediate, of bile at operation, selecting patients requiring antibiotics in biliary surgery by (McLeish et al.), 473
identification of presence and type of biliary microflora by (Keighley et al.), 469

H

Heart, open, and major vascular surgery, three years' experience with computer-based intensive care of patients following (Robicsek et al.), 12
physiologic observations of, six months after ischemic normothermic cardioplegia (Herman et al.), 462
transplant recipients, human, control of graft arteriosclerosis in (Griepp et al.), 262
Hemorrhage, post-traumatic intercostal arterial, angiographic demonstration and transcatheter embolic control of (Barbaric and Luka), 409
in rabbits, changes of upper gastrointestinal blood flow after (Manabe, Suzuki, and Honjo), 446
Hemorrhagic shock, experimental, hepatic protection against bacteremia in (Pardy, Spencer, and Dudley), 193
Hepatic arterial circulation of baboons, adrenergic mechanisms in (Swan et al.), 326
duct obstruction, unilateral, in primate (Strasberg, Petrunka, and Ilson), 91
reticuloendothelial protection against bacteremia in experimental hemorrhagic shock (Pardy, Spencer, and Dudley), 193
synthesis, increased, of cholesterol following jejunoileal bypass (Grosfeld et al.), 701
HLA, long-term results with forty-five living related renal allograft recipients genotypically identical for (Seigler et al.), 274
Homans', John, impact on diseases of veins of lower extremity, with special reference to deep thrombophlebitis and postthrombotic syndrome with ulceration (Linton), 1
Homografts, frozen, irradiated, autografts and, comparison of, in canine femoral venous reconstruction (Giordano et al.), 100
Host presensitization and renal allograft success at a single institution: first transplants (Ferguson et al.), 139
Human aorta, normal and atherosclerotic, geometric comparison of aortic bifurcation prostheses to, and clinical trial of vertical seamed bifurcation prosthesis (Sauvage et al.), 22
osteosarcoma, animal model for (Singh et al.), 168

umbilical cord vein for vascular replacement: preliminary report and observations (Mindich et al.), 152
Hypergastrinemia, gastric acid hypersecretion and, effect of proximal gastric vagotomy on, after massive small bowel resection in dogs (Wolf et al.), 627
Hypertension, portal, ligation procedures in management of (Cooperman and Hermann), 382
renovascular, bilateral renal artery stenosis and (Dean et al.), 53
Hypersecretion, gastric acid, and hypergastrinemia, effect of proximal gastric vagotomy on, after massive small bowel resection in dogs (Wolf et al.), 627

I

Iliac arteries, external, arterial microemboli and fibromuscular dysplasia of (Mehigan and Stoney), 484
Immunity, cell-mediated, effect of antibiotics on (Munster et al.), 692
Immunological monitoring of long-surviving renal transplant and recipients (Thomas et al.), 125
Intensive care, computer-based, of patients following open heart and major vascular surgery, three years' experience with (Robicsek et al.), 12
Intercostal arterial hemorrhage, post-traumatic, angiographic demonstration and transcatheter embolic control of (Barbaric and Luka), 409
Intestinal segment, small, reconstruction of cervical esophagus by transplantation and revascularization of: ten year follow-up (Uemichi et al.), 343
Intestine, small, nontraumatic perforations of (Huttunen et al.), 184
Intra-abdominal infection, occult, valid sign of: remote organ failure (Polk and Shields), 310
Intra-arterial administration, selective, adverse cardiodynamic effects of vasopressin not avoided by (Sirinek, Thomford, and Pace), 723
Intraduodenal acid, effect of, on pre- and postvagotomy basal gastric secretion and gastrin (Linares et al.), 392
Intraoperative autotransfusion and air embolism (letter to the editors) (Deysine), 729; reply (Glover), 729
Ischemia, mesenteric and peripheral vascular, secondary to ergotism (Greene, Ariyan, and Stansel), 176
warm, relationship between prolongation of, and maximum available preservation period (Grundmann et al.), 542
Ischemic extremity, index of over-all blood flow impairment in: pulse-reappearance time (Fronek, Coel, and Bernstein), 376
normothermic cardioplegia, physiologic observations of heart six months after (Hearman et al.), 462
Islets, human cadaveric pancreatic, tissue culture isolation and preservation of (Weber et al.), 270

J

Jejunoileal bypass, extensive, and resection in rats, abnormalities of liver function following (Hyland, Stein, and Wise), 578
increased hepatic synthesis of cholesterol following (Grosfeld et al.), 701
massive weight loss following jejunoileal bypass. I. Effects on pulmonary function (Chodoff et al.), 399

L

(Langer's axillary arch), axillopectoral muscle: cause of axillary vein obstruction (Sachatello), 610
[illegible] death and consent to remove cadaver organs, [illegible] (Stuart), 68
[illegible], aspergillus-induced small bowel obstruction in ([illegible] et al.), 311
[illegible] function, effect of prolonged bacteremia on [illegible], Hurtado, and Schloerb), 180
[illegible] expectancy following aortofemoral arterial grafting (Malone, [illegible], and Goldstone), 551
Ligation procedures in management of portal hypertension (Cooperman and Hermann), 382
Limb salvage, femoropopliteal bypass for (Ramsburgh et al.), 453
Lipase activity, pulmonary lipoprotein, in dogs, changes in, following experimental bone fracture. New concept on pathogenesis of post-traumatic impairment of lung surfactant synthesis and accumulation of fat in lung vessels (Lehr, Niedermüller, and Hofecker), 521
Lipoprotein activity, pulmonary, in dogs, changes in, following experimental bone fracture. New concept on pathogenesis of post-traumatic impairment of lung surfactant synthesis and accumulation of fat in lung vessels (Lehr, Niedermüller, and Hofecker), 521
Liver function, abnormalities of, following extensive jejunoileal bypass and resection in rats (Hyland, Stein, and Wise), 578
replacement for alpha$_1$-antitrypsin deficiency (Putnam et al.), 258
transplantation, biliary complications after: with special reference to biliary cast syndrome and techniques of secondary duct repair (Starzl et al.), 212
Lye strictures, experimental esophageal, morphologic aspects of. II. Effect of steroid hormones, bougienage, and induced lathyrism on acute lye burns (Butler et al.), 431
Lymphocyte, human, –mediated immunity to melanoma, new in vivo assya of (Richmond, Townsend, and Morton), 345

M

Malabsorption, pathophysiology and significance of, after Roux-en-Y reconstruction (Bradley et al.), 684
Malakoplakia of colon and rectum: report of case and review of literature (Joyeuse et al.), 189
Malignant tumors of extrahepatic bile ducts (Andersson, Bergdahl, and van der Linden), 198
Medical education, surgical continuing: format and impact (Greenburg, Bruegel, and Peskin), 708
Melanoma, new in vivo assay of human lymphocyte–mediated immunity (Richmond, Townsend, and Morton), 345
of skin of breast: therapeutic considerations based on six cases (Jochimsen et al.), 583
Membrane, skeletal muscle cell, potential, effect of endotoxin shock on (Gibson et al.), 571
Mesenteric panniculitis: review of literature and presentation of cases (Durst et al.), 203
and peripheral vascular ischemia secondary to ergotism (Greene, Ariyan, and Stansel), 176
vessels, superior, in pregnant woman, midgut volvulus with secondary thrombosis of (Stavorovsky et al.), 353
Methylprednisolone, effects of, on coronary blood flow and myocardial metabolism during cardiopulmonary bypass (Vinas et al.), 646
Microemboli, arterial, and fibromuscular dysplasia of external iliac arteries (Mehigan and Stoney), 484
Microflora, biliary, identification of presence and type of, by immediate gram stains (Keighley et al.), 469
Microvascular surgery, training in (Habal, Fitzpatrick, and Green), 596
Midgut volvulus with secondary thrombosis of superior mesenteric vessels in pregnant woman (Stavorovsky et al.), 353
Muscle, axillopectoral (Langer's axillary arch): cause of axillary vein obstruction (Sachatello), 610
cell membrane, skeletal, potential, effect of endotoxin shock on (Gibson et al.), 571
Mustard procedure, protein-losing enteropathy complicating (Krueger, Burney, and Ferlic), 305
Mycotic cervical carotid aneurysm (Howell, Baburao, and Graziano), 357
Myocardial oxygen demand, influence of coronary arterial pH on (Harken and Woods), 696
revascularization prior to subsequent major surgery in patients with coronary artery disease (McCollum et al.), 302

N

National Institutes of Health applications from departments of surgery, fate of, (editorial) (Powers), 114
Normothermic, ischemic, cardioplegia, physiologic observations of heart six months after (Herman et al.), 462
Nuclear function, protection of, by various agents during organ storage (Lazarus and Hopfenbeck), 319

O

Occlusion of abdominal aorta, aneurysm and, "redo" surgery after operations for (Crawford, Manning, and Kelly), 41
Oral cholecystogram, false-normal (Fiegenschuh and Loughry), 239
(editorial) (Cole), 121
Organ culture, prolonged survival of xenografts after (Sollinger et al.), 74
remote, failure: valid sign of occult intra-abdominal infection (Polk and Shields), 310

Organ culture—cont'd
storage, protection of nuclear function by various agents during (Lazarus and Hopfenbeck), 319
Osteosarcoma, human, animal model for (Singh et al.), 168
Oxygen demand, myocardial, influence of coronary arterial pH on (Harken and Woods), 696
transport and erythropoiesis, effect of sodium ortho-iodobenzoate on, in hypoxemic dogs with right-to-left cardiac shunt (Litwin, Skogen, and Laver), 633

P

Pancreatic ascites diagnosis of leakage site by endoscopic pancreatography (Rawlings, Bynum, and Pasternak), 363
value of endoscopic retrograde pancreatography in management of (Levine et al.), 360
duct obstruction with acrylate glue: new method for producing pancreatic exocrine atrophy (Little, Lauer, and Hogg), 243
exocrine atrophy, new method for producing: pancreatic duct obstruction with acrylate glue (Little, Lauer, and Hogg), 243
islets, human cadaveric, tissue culture isolation and preservation of (Weber et al.), 270
secretion, release of secretin and, effect of alcohol on Llanos et al.), 661
Pancreatitis, acute, relationship of coagulation factors to clinical complications of (Ranson et al.), 502
Pancreatography, endoscopic, diagnosis of leakage site by: pancreatic ascites (Rawlings, Bynum, and Pasternak), 363
retrograde, value of, in management of pancreatic ascites (Levine et al.), 360
Panniculitis, mesenteric: review of literature and presentation of cases (Durst et al.), 203
Paraprosthetic-enteric fistula (O'Mara and Imbembo), 556
Parathyroid allografts, rat, prolongation of survival of, by enhancing serum and tissue culture (Starling, Fidler, and Corry), 668
tissue, frozen, successful transplantation of, in man (Wells et al.), 86
Patency rates, late, of axillobilateral femoral and axillounilateral femoral grafts, comparison of (LoGerfo et al.), 33
Pathophysiology and significance of malabsorption after Roux-en-Y reconstruction (Bradley et al.), 684
Perfusion pressure and colloid osmotic pressure, endothelial damage of pulsatile renal preservation and its relationship to (Cerra et al.), 534
Peripheral arterial trauma, selective intra-arterial tolazoline infusion in (Dickerman et al.), 605
vascular disease of lower extremities, management of (letter to editors) (Bernink); reply (Raines and Darling), 366
ischemia, mesenteric and, secondary to ergotism (Greene, Ariyan, and Stansel), 176
pH, coronary arterial, influence of, on myocardial oxygen demand (Harken and Woods), 696
Plasma free amino acids, venous, effect of surgical operation on (Dale et al.), 295
Popliteal aneurysms, B-scan ultrasound in diagnosis of (Scott, Scott, and Sanders), 436
Portal hypertension, ligation procedures in management of (Cooperman and Hermann), 382
Post-thrombotic syndrome with ulceration, deep thrombophlebitis and, John Homans' impact on diseases of veins of lower extremity, with special reference to (Linton), 1
Preclerkship study, independent: five year experience (Williams et al.), 653
Pregnant woman, midgut volvulus with secondary thrombosis of superior mesenteric vessels in (Stavorovsky et al.), 353
Preservation period, maximum available, relationship between prolongation of warm ischemia and (Grundmann et al.), 542
Profunda femoris artery, traumatic false aneurysm and arteriovenous fistula of: surgical management and review of literature (Loubeau and Bahnson), 222
Prostaglandins E_1 and A_1, fate of, in human pulmonary circulation (Hammond et al.), 716
Prosthesis(es), aortic bifurcation to normal and atherosclerotic human aorta, geometric comparison of and clinical trial of vertical seamed bifurcation prosthesis (Sauvage et al.), 22
arterial, failure of knitted Dacron as (Blumenberg and Gelfand), 493
vertical seamed bifurcation, clinical trial of, geometric comparison of aortic bifurcation prostheses to normal and atherosclerotic human aorta (Sauvage et al.), 22
Prosthetic infections, vascular: collected experience and results of treatment (Liekweg and Greenfield), 335
Protein-losing enteropathy complicating Mustard procedure (Krueger, Burney, and Ferlic), 305
Pulmonary circulation, human, fate of prostaglandins E_1 and A_1 in (Hammond et al.), 716
failure after trauma, crystalloid vs colloid in etiology of: randomized trial in man (Lowe et al.), 676
function, effects of massive weight loss on, following jejunoileal bypass (Chodoff et al.), 399
lipoprotein lipase activity in dogs, changes in, following experimental bone fracture. New concept on pathogenesis of posttraumatic impairment of lung surfactant synthesis and accumulation of fat in lung vessels (Lehr, Niedermüller, and Hofecker), 521
sequestration in children: twenty-five year experience (Butain et al.), 413
Pulsatile renal preservation, endothelial damage of, and its relationship to perfusion pressure and colloid osmotic pressure (Cerra et al.), 534
Pulse-reappearance time: index of over-all blood flow impairment in ischemic extremity (Fronek, Coel, and Bernstein), 376

R

Rabbits, changes of upper gastrointestinal blood flow after hemorrhage in (Manabe, Suzuki, and Honjo), 446
Radiation-induced fibrosarcoma following treatment for breast cancer (Adam and Reif), 421
Rat(s), abnormalities of liver function following extensive jejunoileal bypass and resection in (Hyland, Stein, and Wise), 578
parathyroid allografts, prolongation of survival of, by enhancing serum and tissue culture (Starling, Fidler, and Corry), 668
Rectum, colon and, malakoplakia of: report of case and review of literature (Joyeuse et al.), 189
"Redo" surgery after operations for aneurysm and occlusion of abdominal aorta (Crawford, Manning, and Kelly), 41
Renal allograft recipients genotypically identical for HLA, forty-five living related, long-term results with (Seigler et al.), 274
success, host presensitization and, at a single institution: first transplants (Ferguson et al.), 139
artery stenosis, bilateral, and renovascular hypertension (Dean et al.), 53
transplant, prevention of (Kauffman et al.), 161
preservation, pulsatile, endothelial damage of, and its relationship to perfusion pressure and colloid osmotic pressure (Cerra et al.), 534
transplant donors and their recipients, viral infections in: prospective study (Balfour et al.), 487
recipients, long-surviving, immunological monitoring of (Thomas et al.), 125
Renovascular hypertension, bilateral renal artery stenosis and (Dean et al.), 53
Reticuloendothelial, hepatic, protection against bacteremia in experimental hemorrhagic shock (Pardy, Spencer, and Dudley), 193
Retrograde pancreatography, endoscopic, value of, in management of pancreatic ascites (Levine et al.), 360
Retroperitoneal fibrosis, clinical significance of (Koep and Zuidema), 250
Revascularization, myocardial, prior to subsequent major surgery in patients with coronary artery disease (McCollum et al.), 302
venous, of arm: report of three cases (Jacobson and Maimov), 599
Roux-en-Y reconstruction, pathophysiology and significance of malabsorption after (Bradley et al.), 684

S

Sciatic artery, persistent, clinical aspects of: report of two cases and review of literature (Bower, Smullens, and Parke), 588
Secretin and pancreatic secretion, release of, effect of alcohol on (Llanos et al.), 661
Sequestration, pulmonary, in children: twenty-five year experience (Butain et al.), 412
Shock, experimental hemorrhagic, hepatic reticuloendothelial protection against bacteremia in (Pardy, Spencer, and Dudley, 193
Skeletal muscle cell membrane potential, effect of endotoxin shock on (Gibson et al.), 571

Small bowel obstruction, aspergillus-induced, in leukemic newborn (Raaf et al.), 111
intestine, nontraumatic perforations of (Huttunen et al.), 184
Sodium ortho-iodobenzoate, effect of, on oxygen transport and erythropoiesis in hypoxemic dogs with right-to-left cardiac shunt (Litwin, Skogen, and Laver), 633
Splenic rupture in infants and children, splenorraphy for treatment of (LaMura, Chung-Fat, and San Filippo), 497
Splenorraphy for treatment of splenic rupture in infants and children (LaMura, Chung-Fat, and San Filippo), 497
Stains, immediate gram, of bile at operation, selecting patients requiring antibiotics in biliary surgery by (McLeish et al.), 473
identification of presence and type of biliary microflora by (Keighley et al.), 469
Stenosis, bilateral renal artery, and renovascular hypertension (Dean et al.), 53
transplant renal artery, prevention of (Kauffman et al.), 161
Surgeons, university, motivation of, to achieve excellence in teaching (Fonkalsrud), 613
Surgery, departments of, fate of National Institutes of Health applications from (editorial) (Powers), 114
Surgical continuing medical education: format and impact (Greenburg, Bruegel, and Peskin), 708
Survival rate, graft, influence of presensitization on (Salvatierra et al.), 146

T

T-cell cediated immunity to transplantation antigens, new assay for (Ramey et al.), 640
Teaching, motivation of university surgeons to achieve excellence in (Fonkalsrud), 613
Thromboembolism, venous, physical methods for prevention of (editorial) (Salzman), 123
Thrombophlebitis, deep, and post-thrombotic syndrome with ulceration, John Homans' impact on diseases of veins of lower extremity, with special reference to (Linton), 1
Thrombosis, deep vein, prevention of, with particular reference to mechanical methods of prevention (Cotton and Roberts), 228
secondary, of superior mesenteric vessels, midgut volvulus with, in pregnant woman (Stavorovsky et al.), 353
Tissue culture isolation and preservation of human cadaveric pancreatic islets (Weber et al.), 270
Tolazoline infusion, selective intra-arterial, in peripheral arterial trauma (Dickerman et al.), 605
Transcatheter embolic control and angiographic demonstration of post-traumatic intercostal arterial hemorrhage (Barbaric and Luka), 409
Transplant(s) donors, renal, and their recipients, viral infections in: prospective study (Balfour et al.), 487
experience, lessons we have learned from (Moore), 63
first: host presensitization and renal allograft success at a single institution (Ferguson et al.), 139
recipients, human heart, control of graft arteriosclerosis in (Griepp et al.), 262
long-surviving renal, immunological monitoring of (Thomas et al.), 125
renal artery stenosis, prevention of (Kauffman et al.), 161
Transplantation antigens, new assay for T-cell mediated immunity to (Ramey et al.), 640
liver, biliary complications after: with special reference to biliary cast syndrome and techniques of secondary duct repair (Starzl et al.), 212
role of antivascular endothelial cell antibody in (Cerilli et al.), 132
successful, of frozen parathyroid tissue in man (Wells et al.), 86
Transplanted cells, xenografted (letter to the editors) (Gans), 731
Traumatic aortorenal vein fistula: repair using total circulatory arrest (Griffin et al.), 480
Tumors, malignant, of extrahepatic bile ducts (Andersson, Bergdahl, and van der Linden), 198

U

Ulceration, post-thrombotic syndrome with, deep thrombophlebitis and, John Homans' impact on diseases of veins of lower extremity, with special reference to (Linton), 1
Ultrasound, B-scan, in diagnosis of popliteal aneurysms (Scott, Scott, and Sanders), 436
Umbilical cord vein, human, for vascular replacement: preliminary report and observations (Mindich et al.), 152
Unilateral hepatic duct obstruction in prinate (Strasberg, Petrunka, and Ilson), 91
University surgeons, motivation of, to achieve excellence in teaching (Fonkalsrud), 613

V

Vagotomy, effect of, on canine enterogastrone mechanism (Kaminski and Ruwart), 80
proximal gastric, effect of, on gastric acid hypersecretion and hypergastrinemia after massive small bowel resection in dogs (Wolf et al.), 627
Vascular disease, peripheral, of lower extremities, management of (letter to editors) (Bernink); reply (Raines and Darling), 366
ischemia, mesenteric and peripheral, secondary to ergotism (Greene, Ariyan, and Stansel), 176
major, surgery, open heart and, three years' experience with computer-based intensive care of patients following (Robicsek et al.), 12
prosthetic infections: collected experience and results of treatment (Liekweg and Greenfield), 335
replacement, human unbilical cord vein for: preliminary report and observations (Mindich et al.), 152
Vasopressin, adverse cardiodynamic effects of, not avoided by selective intra-arterial administration (Sirinek, Thomford, and Pace), 723
Vein(s), autogenous, and velour Dacron in femoropopliteal arterial bypass (Stephen et al.), 314
fistula, traumatic aortorenal: repair using total circulatory arrest (Griffin et al.), 480
human umbilical cord, for vascular replacement: preliminary report and observations (Mindich et al.), 152
of lower extremity, John Homans' impact on diseases of, with special reference to deep thrombophlebitis and post-thrombotic syndrome with ulceration (Linton), 1
thrombosis, deep, prevention of, with particular reference to mechanical methods of prevention (Cotton and Roberts), 228
Velour Dacron, autogenous veins and, in femoropopliteal arterial bypass (Stephen et al.), 314
Venous, femoral, reconstruction, canine, comparison of autografts and frozen, irradiated homografts in (Giordano et al.), 100
plasma free amino acids, effect of surgical operation on (Dale et al.), 295
revascularization of arm: report of three cases (Jacobson and Haimov), 599
thromboembolism, physical methods for prevention of (editorial) (Salzman), 123
Viral infections in renal transplant donors and their recipients: prospective study (Balfour et al.), 487
Volvulus, midgut, with secondary thrombosis of superior mesenteric vessels in pregnant woman (Stavorovsky et al.), 353

SUBJECT INDEX*

A

Abdominal aneurysmectomy, temporary vascular bypass for perfusion of renal transplant during (Sterioff and Parks), 558
trauma, blunt, peripheral atheromatous embolization following (Hertzer), 244
Abdominoperineal resection in treatment of devascularizing rectal injuries (Getzen, Pollak, and Wolfman), 310
Abscess, pancreatic, prevention, diagnosis, and treatment of (Ranson and Spencer), 99
Acids, bile, "barrier," and reflux-related clinical disorders of gastric mucosa (Ritchie), 192
Adenomatosis, multiple endocrine, type II, dilemmas in early diagnosis and treatment of (Freier et al.), 407
Adenyl cyclase, enhancement of, by steroid therapy in shock (Jones, McArdle, and Hinchey), 483
Adrenergic stimulation, role of, in pathogenesis of pulmonary insufficiency (Berk et al.), 366
Albumin, saline-, reinfusion, paracentesis and management of. Ascitic leak: case presentation (Quillen and Polk), 241
Allografts, primary renal, recipients, abnormal serum lipid patterns in (Chatterjee et al.), 655
renal, reappraisal of role of splenectomy in children receiving (Cerilli and Jones), 510
survival, prognostic significance of active thymus-derived rosette-forming cells in: preliminary report (Kerman et al.), 607
Amylase, insulin and, dosages, incorrect (letter) (Weber), 172
Anastomosis, end-to-side, of mesenteric vein to inferior vena cava in treatment of glycogen storage disease: case report (Esato et al.), 287
exteriorized: its role in surgery of colon (Kirkpatrick), 362
extracranial-to-intracranial vascular, for occlusive cerebrovascular disease: experience in 110 patients (Popp and Chater), 648
portacaval, effects of, on liver and brain protein synthesis in rats (Lundborg and Hamberger), 643
Anastomotic blood flow, arteriovenous, direct measurement of, after lumbar sympathectomy (Cronenwett and Lindenauer), 82
Ancrod defibrinogenation, modification of postoperative tendon adhesions by (Buckman et al.), 721
Anesthetic-induced immunosuppression by thiopental—pulmonary metastases, potential biologic consequence of (Lundy, Lovett, and Conran), 254
Aneurysmectomy, abdominal, temporary vascular bypass for perfusion of renal transplant during (Sterioff and Parks), 558
Aneurysms, gluteal and persistent sciatic artery: pulsatile buttock masses (Steele et al.), 201
Ankle pressure index, intraoperative prediction of symptomatic result of aortofemoral bypass from changes in (Garrett et al.), 504
Antibiotic resistance transfer from nonpathogenic to pathogenic bacteria (Hummel, Miskell, and Altemeier), 382
Anticoagulation, in vivo assessment of (Blaisdell, Graziano, and Effeney), 827
Antigens, cell surface, in rat colon cancer model: correlation with inhibition of tumor growth (Steele and Sjogren), 164

*July, pp. 1-172; August, pp. 173-290; September, pp. 291-414; October, pp. 415-536; November, pp. 537-774; December, pp. 775-908.

Aorta-femoral, aorta-iliac and, bypass operations, subsequent downstream repair after (Baird et al.), 785
-iliac and aorta-femoral bypass operations, subsequent downstream repair after (Baird et al.), 785
Aorta, lipid composition of, effects of experimental hypertension and hypercholesterolemia on (Larson et al.), 794
thoracic, nonpenetrating trauma to (Vasko et al.), 400
Aortic cross-clamping, continuous, does intermittent coronary perfusion offer greater myocardial protection than? (Levitsky et al.), 51
Aortofemoral bypass, intraoperative prediction of symptomatic result of, from changes in ankle pressure index (Garrett et al.), 504
graft occlusion, reoperation of choice for (Bernhard, Ray, and Towne), 867
Arrhythmia, refractory ventricular: role of intraoperative electrophysiological study (Moran et al.), 809
Arteriovenous anastomotic blood flow, direct measurement of, after lumbar sympathectomy (Cronenwett and Lindenauer), 82
fistula, conversion of Scribner shunt to, for chronic dialysis (Simonian et al.), 448
Artery. (*See* specific artery)
Ascitic leak: case presentation. Management of paracentesis and saline-albumin reinfusion (Quillen and Polk), 241
Aspiration pneumonia: beneficial and harmful effects of positive end-expiratory pressure (Toung et al.), 279
Association, gilt by (presidential address) (Hubay), 291
"Asymptomatic" carotid bruit, noninvasive evaluation and management of (Kartchner and McRae), 840
Atelectasis, nature of failure of pulmonary adaptation to (Kersten et al.), 90
Atheromas, trauma-provoked, pathogenesis and prevention of (DePalma et al.), 429
Atheromatous embolization, peripheral, following blunt abdominal trauma (Hertzer), 244
Atresia, esophageal, and tracheosophageal fistula, motor function of esophagus after repair of (Duranceau et al.), 116
intestinal, gastroschisis complicated by (Amoury, Ashcraft, and Holder), 373
Autogenous venous grafts ten years later (DeWeese and Rob), 775
Autotransplantation of pancreatic islets without separation of exocrine and endocrine tissue in totally pancreatectomized dogs (Kretschmer et al.), 74
Axillary, subclavian, and brachiocephalic vein obstruction (Campbell et al.), 816

B

Bacteria, nonpathogenic to pathogenic, antibiotic resistance transfer from (Hummel, Miskell, and Altemeier), 382
Bacteriology, quantitative, and pathology of lung in experimental Pseudomonas pneumonia treated with positive end-expiratory pressure (PEEP) (Tilson et al.), 133
Balloon, intra-aortic, counterpulsation, peripheral arterial complications of (Pace et al.), 685
Barrett's esophagus, fundoplication and, management of complications of (Burnett et al.), 521
Bifurcation prostheses, small, new method of creating, utilizing tubular grafts (Wilbur and Stoney), 768
Bilateral Wilms' tumor, evolution of surgical treatment of (Altman et al.), 760
Bile acids, "barrier," and reflux-related clinical disorders of gastric mucosa (Ritchie), 192
Biliary stricture, cause of: chronic pancreatitis (Schulte et al.), 303
tract disease, routine preoperative upper gastrointestinal series (UGIS) in patients with: plea for more selectivity (Max and Polk), 334
Biopsy, needle aspiration, ultrasonography and, combined, prospective study of, in assessment of hypofunctioning thyroid nodule (Walfish et al.), 474
Bladder, gastric: continent reservoir for urinary diversion (Rudick, Shonholz, and Weber), 1
Blastogenesis, lymphocyte, – inhibiting factors in sera of melanoma patients, demonstration of (Rangel, Golub, and Morton), 224
Blood flow, arteriovenous anastomotic, direct measurement of, after lumbar sympathectomy (Cronenwett and Lindenauer), 82
hypoxic, significance of pulmonary changes associated with cerebral perfusion with, in monkeys (Crockard et al.), 588
Bone marrow, erythrocytes cultured from (Kelly et al.), 260
Bowel disease, inflammtory, emergency colectomy for (Block et al.), 531
ischemic, following bilateral nephrectomy or renal transplant (Margolis et al.), 667
rabbit, injected with Crohn's disease homogenates, production of unusual tissue reaction in (Simonowitz et al.), 211
small, bypass failure, management of morbidly obese patient after (Hitchcock et al.), 356
morphology and epithelial proliferation in intravenously alimented rabbits (Eastwood), 613
Brachiocephalic, axillary, and subclavian vein obstruction (Campbell et al.), 816
Brain, liver and, protein synthesis in rats, effects of portacaval anastomosis on (Lundborg and Hamberger), 643
Breast cancer, metastatic, clinical management of (Lawrence, Brown, and Terz), 173
survival distribution in (Blackwood et al.), 443
Bruit, "asymptomatic" carotid, noninvasive evaluation and management of (Kartchner and McRae), 840
Bunnell suture, some effects of, on otherwise uninjured tendons in subhuman primates (Buckman et al.), 660
Burn management, hyperbaric oxygen in: controlled study (Niccole et al.), 727
Buttock masses, pulsatile: gluteal and persistent sciatic artery aneurysms (Steele et al.), 201
Bypass, aortofemoral, intraoperative prediction of symptomatic result of, from changes in ankle pressure index (Garrett et al.), 504
failure, small bowel, management of morbidly obese patient after (Hitchcock et al.), 356
jejunoileal, for morbid obesity, acute reversible renal failure following: clinical and pathological (EM) study of case (Ehlers et al.), 629
operations, aorta-iliac and aorta-femoral, subsequent downstream repair after (Baird et al.), 785

C

Cancer, breast, survival distribution in (Blackwood et al.), 443
metastatic breast, clinical management of (Lawrence, Brown, and Terz), 173
model, rat colon, cell surface antigens in: correlation with inhibition of tumor growth (Steele and Sjogren), 164
pancreatic, pancreatic secretion in hamsters with (Reber et al.), 34
Canine pancreas, isolated perfused, studies with: acute pancreatitis with hyperlipemia (Saharia et al.), 60
Carcinoma, colorectal, correlation of immune responses with Dukes classification in (Jubert et al.), 452
of extraperitoneal rectum, twent-five years of experience with radical surgical treatment of (Patel, Tovee, and Langer), 460
Cardiac surgery, critical look at temporary ventricular pacing following (Curtis et al.), 888
valve, superior, replacement, tissue valve as (Angell et al.), 875
Cardiorespiratory and sympathoadrenal responses during weaning from controlled ventilation (Kennedy, Weintraub, and Skillman), 233
Carotid artery occlusive disease, comparison of noninvasive diagnostic techniques in (Gross et al.), 271
use of velocity wave form analysis in diagnosis of (Rutherford, Hiatt, and Kreutzer), 695
stenosis, use of ophthalmosonometery in diagnosis of (Moore et al.), 99
surgery, concept of "salvage" in (editorial) (Scarpa, Boltax, and Dineen), 752
totally occluded, surgical management of (Turnipseed, Vasko, and Lubow), 689
bruit, "asymptomatic," noninvasive evaluation and management of (Kartchner and McRae), 840
endarterectomy: is an indwelling shunt necessary? (Baker, Dorner, and Barnes), 321
Catheter, continual, administration of elemental diet in infants and children (Andrassy et al.), 205
Cecum, volvulus of, following transplant donor nephrectomy (Etheredge, Martz, and Anderson), 764
Celiac axis, superior mesenteric artery, and inferior mesenteric artery occlusion: surgical considerations (Crawford et al.), 856
Cell(s), active thymus-derived rosette-forming, in renal allograft survival, prognostic significance of: preliminary report (Kerman et al.), 607

Cells—cont'd
parietal, vagotomy: surgical technique, gastric acid secretion, and recurrence (editorial) (Jaffe), 284
Cellulose, oxidized regenerated, effect of, on experimental intravascular infection (Dineen), 576
Cerebral perfusion with hypoxic blood in monkeys, significance of pulmonary changes associated with (Crockard et al.), 588
Cerebrovascular disease, occlusive, extracranial-to-intracranial vascular anastomosis for: experience in 110 patients (Popp and Chater), 648
Children, hiatal hernia in, surgical or conservative treatment in: new decisive parameter (Casasa and Boix-Ochoa), 573
operative management of von Recklinghausen's neurofibromatosis in, with special reference to lesions of head and neck (Adkins and Ravitch), 342
receiving renal allografts, reappraisal of role of splenectomy in (Cerilli and Jones), 510
Cholangiography, cholecystokinin (letter) (Freeman), 771; more on cholecystokinin cholangiography (Hale), 771; and more (Cheung), 772; reply (Loughry and Fiegenschuh), 772
Cholecystokinin cholangiography (letter) (Freeman), 771; more on cholecystokinin cholangiography (Hale), 771; and more (Cheung), 772; reply (Loughry and Fiegenschruh), 772
gastrin and, exogenous, augmented gastric inhibitory polypeptide response to intraduodenal glucose by (Sirinek et al.), 438
Choledocholithiasis, postcholecystectomy, ultrasonic scanning in (Sapala et al.), 420
Cholesterol dynamics, plasma lipids and, effect of selective visceral caval shunt on (Guzman et al.), 42
Circulation, portal, during temporary portal vein occlusion and after portal-systemic shunt surgery, hemodynamic analysis of (Archie), 674
Colectomy, emergency, for inflammatory bowel disease (Block et al.), 531
Colitis, Crohn's, Hodgkin's disease complicating (Codling, Keighley, and Slaney), 625
Collagen synthesis, effect of corticosteroids on (Cohen, Diegelmann, and Johnson), 15
Colon cancer model, rat, cell surface antigens in: correlation with inhibition of tumor growth (Steele and Sjogren), 164
role of exteriorized anastomosis in surgery of (Kirkpatrick), 362
Colorectal carcinoma, correlation of immune response with Dukes classification in (Jubert et al.), 452
Communicating veins, incompetent, relative importance of, in production of varicose veins and venous ulcers (Burnand et al.), 9
Coronary perfusion, intermittent, does [it] offer greater myocardial protection than continuous aortic cross-clamping? (Levitsky et al.), 51
Corticosteroids, effect of, on collagen synthesis (Cohen, Diegelmann, and Johnson), 15
Cost-benefit analysis, evaluation of surgical therapy by (Barnes and Barnes), 21
Counterpulsation, intra-aortic balloon, peripheral complications of (Pace et al.), 685
Chrohn's colitis, Hodgkin's disease complicating (Codling, Keighley, and Slaney), 625
disease homogenates, production of unusual tissue reaction in rabbit bowel injected with (Simonowitz et al.), 211
Cross-clamping, continuous aortic, does intermittent coronary perfusion offer greater myocardial protection than? (Levitsky et al.), 51
Cytomegalovirus infection, lethal, clinical characteristics of, following renal transplantation (Simmons et al.), 537

D

Defibrinogenation, ancrod, modification of postoperative tendon adhesions by (Buckman et al.), 721
Delayed hypersensitivity response: application in clinical surgery (Pietsch, Meakins, and MacLean), 349
Dialysis, chronic, conversion of Scribner shunt to arteriovenous fistula for (Simonian et al.), 448
Dialyzer, permeable membrane, hepatic support with hepatocyte suspensions in (Olumide et al.), 599
Diaphragmatic hernia, ventral hernia with skin-covered Silastic sheet for newborn infants with (Priebe and Wichern), 569
Diet, elemental, continual catheter administration of, in infants and children (Andrassy et al.), 205
Disease, carotid artery occlusive, use of velocity wave form analysis in diagnosis of (Rutherford, Hiatt, and Kreutzer), 695
Distress syndrome, respiratory, role of fibrinogen degradation products in pathogenesis of (Luterman, Manwaring, and Curreri), 703
Dogs, totally pancreatectomized, autotransplantation of pancreatic islets without separation of exocrine and endocrine tissue in (Kretschmer et al.), 74
Dosage error (letter) (Grosfeld), 171
Dukes classification, correlation of immune responses with, in colorectal carcinoma (Jubert et al.), 452
Duodenal obstruction, congenital intrinsic: twenty-five year review (Wesley and Mahour), 716
ulcer, highly selective vagotomy in treatment of, in teaching hospital. One-to-three year follow-up relating results to number of operating surgeons, their surgical experience, and training conditions (Solhaug, Bjerkeset, and Halvorsen), 248

E

Effusion, pericardial, another view on treatment for (letter) (Oakes et al.), 894
Electrophysiological study, intraoperative, role of: refractory ventricular arrhythmia (Moran et al.), 809
Embolization, peripheral atheromatous, following blunt abdominal trauma (Hertzer), 244
End-to-side anastomosis of mesenteric vein to inferior vena cava in treatment of glycogen storage disease: case report (Esato et al.), 287
Endarterectomy, carotid: is an indwelling shunt necessary? (Baker, Dorner, and Barnes), 321
Endocrine adenomatosis, multiple, type II, dilemmas in early diagnosis and treatment of (Freier et al.), 407
exocrine and, tissue, autotransplantation of pancreatic islets without separation of, in totally pancreatectomized dogs (Kretschmer et al.), 74
Endoscopic retrograde pancreatography (letter) (Graham), 414
Endoscopy, vascular: useful tool or interesting toy (Towne and Bernhard), 415
Endotoxin-induced changes in oxidative phosphorylation in hepatic mitochondria, prevention of (DePalma et al.), 68
Enterocolitis, neonatal necrotizing, surgical management of (Spitz, Saron, and Pettifor), 621
Epithelial proliferation, small bowel morphology and, in intravenously alimented rabbits (Eastwood), 613
Ergot-induced insufficiency, intravenous streptokinase treatment for (letter) (Ganel and Adar), 414
Erythrocytes cultured from bone marrow (Kelly et al.), 260
Eosphagus, Barrett's, fundoplication and, management of complication of (Burnett et al.), 521
motor function of, after repair of esophageal atresia and tracheoesophageal fistula (Duranceau et al.), 116
Exocrine and endocrine tissue, autotransplantation of pancreatic islets without separation of, in totally pancreatectomized dogs (Kretschmer et al.), 74
Exteriorized anastomosis: its role in surgery of colon (Kirkpatrick), 362
Extraperitoneal rectum, twenty-five years of experience with radical surgical treatment of carcinoma of (Patel, Tovee, and Langer), 460

F

Family history, surgery and (editorial) (DeCosse), 750
Fibrinogen degradation products, role of, in pathogenesis of respiratory distress syndrome (Luterman, Manwaring, and Curreri), 703
Filter, umbrella, intracaval breakage of (Cabrera and Macht), 555
Fistula, arteriovenous, conversion of Scribner shunt to, for chronic dialysis (Simonian et al.), 448
tracheoesophageal, esophageal atresia and, motor function of esophagus after repair of (Duranceau et al.), 116
Founding fathers (Thompson), 801
Fundic pouches, innervated and denervated, effect of metacholine on acid and pepsin responses to pentagastrin in cats with (Svennson, Dubrasquet, and Emås), 580
Fundoplication and Barrett's esophagus, management of complications of (Burnett et al.), 521
experimental: comparison of results of different techniques (Leonardi et al.), 514

Furosemide, questionable value of, in preventing renal failure (Lucas et al.), 314

G

Gardner's syndrome, diagnosis and treatment of patients with (Watne et al.), 327
Gastric acid secretion, endogenous serotonin in control of (Jaffe, Kopen, and Lazan), 156
  bladder: continent reserfor urinary diversion (Rudick, Shonholz, and Weber), 1
  inhibitory polypeptide response, augmented, to intraduodenal glucose by exogenous gastrin and cholecystokinin (Sirinek et al.), 438
  mucosa, bile acids, "barrier," and reflux-related clinical disorders of (Ritchie), 192
Gastrin and cholecystokinin, exogenous, augmented gastric inhibitory polypeptide response to intraduodenal glucose by (Sirinek et al.), 438
Gastrointestinal stapling devices, complications associated with use of (Wassner, Yohai, and Heimlich), 395
  upper, series (UGIS), routine preoperative, in patients with biliary tract disease: plea for more selectivity (Max and Polk), 334
Gastroschisis and omphalocele: clinical differences (Moore), 561
  complicated by intestinal atresia (Amoury, Ashcraft, and Holder), 373
Gilt by association (presidential address) (Hubay), 291
Glucose, intraduodenal, augmented gastric inhibitory polypeptide response to, by exogenous gastrin and cholecystokinin (Sirinek et al.), 438
Gluteal and persistent sciatic artery aneurysms: pulsatile buttock masses (Steele et al.), 201
Glycogen storage disease, end-to-side anastomosis of mesenteric vein to inferior vena cava in treatment of: case report (Esato et al.), 287
Graft(s), aortofemoral, occlusion, reoperation of choice for (Bernhard, Ray, and Towne), 867
  autogenous venous, ten years later (DeWeese and Rob), 775
  to, or to ream? Time for reappraisal (letter) (Wittenstein), 774
  tubular, volvulus of cecum following transplant donor nephrectomy (Wilbur and Stoney), 768

H

Hamsters with pancreatic cancer, pancreatic secretion in (Reber et al.), 34
Hand, unilateral Raynaud's phenomenon in, and its significance (Bouhoutsos, Morris, and Martin), 547
Hemodynamic analysis of portal circulation during temporary portal vein occlusion and after portal-systemic shunt surgery (Archie), 674
Hepatic mitochondria, prevention of endotoxin-induced changes in oxidative phosphorylation in (DePalma et al.), 68
  support with hepatocyte suspensions in permeable membrane dialyzer (Olumide et al.), 599
Hepatocellular transplantation in acute liver failure (Sutherland et al.), 124
  tumors, benign (Guzman et al.), 495
Hepatocyte syspensions, hepatic support with, in permeable membrane dialyzer (Olumide et al.), 599
Hepatorenal syndrome: reversal by peritovenous shunt (Fullen), 337
Hernia, diaphragmatic, ventral hernia with skin-covered Silastic sheet for newborn infants with (Priebe and Wichern), 569
  hiatal, in children, surgical or conservative treatment in: new decisive parameter (Casasa and Boix-Ochoa), 573
  ventral, with skin-covered Silastic sheet for newborn infants with a diaphragmatic hernia (Priebe and Wichern), 569
Hiatal hernias in children, surgical or conservative treatment in: new decisive parameter (Casasa and Boix-Ochoa), 573
Hodgkin's disease complicating Crohn's colitis (Codling, Keighley, and Slaney), 625
Hyperbaric oxygen in burn management: controlled study (Niccole et al.), 727
Hypercholesterolemia, hypertension and, experimental, effects of, on lipid composition of aorta (Larson et al.), 794
Hyperlipemia, acute pancreatitis with: studies with isolated perfused canine pancreas (Saharia et al.), 60
Hyperparathyroidism, radiation-associated: new syndrome? (Prinz et al.), 296
Hyperplastic lymph nodes, regional, in breast cancer: role of lymphocytes and nodal macrophages. Immunological study with five-year follow-up (Hickok, Miller, and Harris), 710
Hypersensitivity response, delayed, application in clinical surgery (Pietsch, Meakins, and MacLean), 349
Hypertension and hypercholesterolemia, experimental, effects of, on lipid composition of aorta (Larson et al.), 794
Hypocalcemia, prevention and correction of, in parathyroidectomized rat by portacaval shunt (Pfefferman et al.), 266
Hypofunctioning thyroid nodule, prospective study of combined ultrasonography and needle aspiration biopsy in assessment of (Walfish et al.), 474
Hypoxic blood, significance of pulmonary changes associated with cerebral perfusion with, in monkeys (Crockard et al.), 588

I

Immune responses, correlation of, with Dukes classification in colorectal carcinoma (Jubert et al.), 452
Immunosuppression, anesthetic-induced, by thiopental—pulmonary metases, potential biologic consequence of (Lundy, Lovett, and Conran), 254
Indwelling shunt, is [it] necessary: carotid endarterectomy (Baker, Dorner, and Barnes), 321
Inferior mesenteric artery, superior mesenteric artery, and celiac axis occlusion: surgical considerations (Crawford et al.), 856
  vena cava, end-to-side anastomosis of mesenteric vein to, in treatment of glycogen storage disease: case report (Esato et al.), 287
Insufficiency, pulmonary, role of adrenergic stimulation in pathogenesis of (Berk et al.), 366
Insulin and amylase dosages, incorrect (letter) (Weber), 172
Intestinal atresia, gastroschisis complicated by (Amoury, Ashcraft, and Holder), 373
Intra-aortic balloon counterpulsation, peripheral arterial complications of (Pace et al.), 685
Intracaval breakage of umbrella filter (Cabrera and Macht), 555
Intraplenic islet isografts (Feldman et al.), 386
Intravascular infection, experimental, effect of oxidized regenerated cellulose on (Dineen), 576
Ischemia, acute mesenteric, initial results from aggressive roentgeological and surgical approach to (Boley et al.), 848
Ischemic bowel disease following bilateral nephrectomy or renal transplant (Margolis et al.), 667
Islet(s), intrasplenic, isografts (Feldman et al.), 386
  pancreatic, autotransplantation of, without separation of exocrine and endocrine tissue in totally pancreatectomized dogs (Kretschmer et al.), 74
Isografts, intrasplenic islet (Feldman et al.), 386
Isoproterenol, characteristics of inhibition of pancreatic secretion by (Kelly, Rose, and Nahrwold), 680

J

Jejunolileal pypass for morbid obesity, acute reversible renal failure following: clinical and pathological (EM) study of case (Ehlers et al.), 629

L

Lipid(s) composition of aorta, effects of experimental hypertension and hypercholesterolemia on (Larson et al.), 794
  plasma, and cholesterol dynamics, effect of selective visceral caval shunt on (Guzman et al.), 42
  serum, patterns, abnormal, in primary renal allograft recipients (Chatterjee et al.), 655
Liver and brain protein synthesis in rats, effects of portacaval anastomosis on (Lundborg and Hamberger), 643
  failure, acute, hepatocellular transplantation in (Sutherland et al.), 124
    postshunt, mechanism of (Reichle et al.), 738
Lymph nodes, regional hyperplastic, in breast cancer: role of lymphocytes and nodal mancrophages. Immunological study with five-year follow-up (Hickok, Miller, and Harris), 710
Lymphatic disruption in varicose vein surgery (van Bellen et al.), 257
Lymphocyte blastogenesis–inhibiting factors in sera of melanoma patients, demonstration of (Rangel, Golub, and Morton), 224

M

Macroamylasemia (Faro, Trafton, and Organ), 552
Marrow-bone, erythrocytes cultured from (Kelly et al.), 260
Melanoma patients, demonstration of lymphocyte blastogenesis–inhibiting factors in sera of (Rangel, Golub, and Morton), 224
Membrane dialyzer, permeable, hepatic support with hepatocyte suspensions in (Olumide et al.), 599
Mesenchymal solid tumors of omentum and mesentery: report of four cases (Weinberger and Ahmed), 754
Mesenteric, inferior, artery, superior mesenteric artery, and celiac axis occlusion: surgical considerations (Crawford et al.), 856
  ischemia, acute, initial results from aggressive roentgenological and surgical approach to (Boley et al.), 848
  superior, artery, inferior mesenteric artery, and celiac axis occlusion: surgical considerations (Crawford et al.), 856
  vein, end-to-side anastomosis of, to inferior vena cava in treatment of glycogen storage disease: case report (Esato et al.), 287
Mesentery, omentum and, mesenchymal solid tumors of: report of four cases (Weinberger and Ahmed), 754
Metastases, pulmonary, potential biologic consequence of anesthetic-induced immunosuppression by thiopental (Lundy, Lovett, and Conran), 254
Metastatic breast cancer, clinical management of (Lawrence, Brown, and Terz), 173
Methacholine, effect of, on acid and pepsin responses to pentagastrin in cats with innervated and denervated fundic pouches (Svensson, Dubrasquet, and Emås), 580
Mitochondria, hepatic, prevention of endotoxin-induced changes in oxidative phosphorylation in (DePalma et al.), 68
Monkeys, significance of pulmonary changes associated with cerebral perfusion with hypoxic blood in (Crockard et al.), 588
Morbidly obese patient, management of, after small bowel bypass failure (Hitchcock et al.), 356
Mucosa, gastric, bile acids, "barrier," and reflux-related clinical disorders of (Ritchie), 192
Multiple endocrine adenomatosis, type II, dilemmas in early diagnosis and treatment of (Freier et al.), 407
Myocardial protection, does intermittent coronary perfusion offer greater, than continuous aortic cross-clamping? (Levitsky et al.), 51
  reperfusion injury, studies on. I. Favorable modification by adjusting reperfusate pH (Follette et al.), 149

N

Neck exploration, parathyroid, "conservative" versus "liberal" approach to (Edis et al.), 466
Necrotizing enterocolitis, neonatal, surgical management of (Spitz, Saron, and Pettifor), 621
Needle aspiration biopsy, ultrasonography and, combined, prospective study of, in assessment of hypofunctioning thyroid nodule (Walfish et al.), 474
Neonatal necrotizing enterocolitis, surgical management of (Spitz, Saron, and Pettifor), 621
Nephrectomy, bilateral, or renal transplant, ischemic bowel disease following (Margolis et al.), 667
  transplant donor, volvulus of cecum following (Etheredge, Martz, and Anderson), 764
Neurofibromatosis, von Recklinghausen's, operative management of, in children, with special reference to lesions of head and neck (Adkins and Ravitch), 342
Nodes, regional hyperplastic lymph, in breast cancer: role of lymphocytes and nodal macrophages. Immunological study with five-year follow-up (Hickok, Miller, and Harris), 710
Noninvasive diagnostic techniques, comparison of, in carotid artery occlusive disease (Gross et al.), 271
Nonpathogenic to pathogenic bacteria, antibiotic resistance transfer from (Hummel, Miskell, and Altemeier), 382

O

Obese, morbidly, patient, management of, after small bowel bypass failure (Hitchcock et al.), 356
Obesity, morbid, jejunoileal bypass for, acute reversible renal failure following: clinical and pathological (EM) study of case (Ehlers et al.), 629
Obstruction, congenital intrinsic duodenal: twenty-five year review (Wesley and Mahour), 716
Occluded carotid artery, totally, surgical management of (Turnipseed, Vasko, and Lubow), 689
Occlusion, aortofemoral graft, reoperation of choce for (Bernhard, Ray, and Towne), 867
Occlusive disease, carotid artery, comparison of noninvasive diagnostic techniques in (Gross et al.), 271
Oliguria, mechanisms for, in acute renal failure (Hermreck et al.), 141
Omentum and mesentery, mesenchymal solid tumors of: report of four cases (Weinberger and Ahmed), 754
Omphalocele, gastroschisis and: clinical differences (Moore), 561
Ophthalmosonometery, use of, in diagnosis of carotid artery stenosis (Moore et al.), 99
Oxidized regenerated cellulose, effect of, on experimental intravascular infection (Dineen), 576
Oxygen, hyperbaric, in burn management: controlled study (Niccole et al.), 727

P

Pacing, temporary ventricular, following cardiac surgery, critical look at (Curtis et al.), 888
Pancreas, canine, isolated perfused, studies with: acute pancreatitis with hyperlipemia (Saharia et al.), 60
Pancreatic abscess, prevention, diagnosis, and treatment of (Ranson and Spencer), 99
  islets, autotransplantation of, without separation of exocrine and endocrine tissue in totally pancreatectomized dogs (Kretschmer et al.), 74
  secretion by isoproterenol, characteristics of inhibition of (Kelly, Rose, and Nahrwold), 680
    in hamsters with pancreatic cancer (Reber et al.), 34
Pancreatitis, acute, with hyperlipemia: studies with isolated perfused canine pancreas (Saharia et al.), 60
  chronic: cause of biliary stricture (Schulte et al.), 303
Pancreatography, endoscopic retrograde (letter) (Graham), 414
Paracentesis and saline-albumin reinfusion, management of. Ascitic leak: case presentation (Quillen and Polk), 241
Parathyroid neck exploration, "conservative" versus "liberal" approach to (Edis et al.), 466
Parathyroidectomized rat, hypocalcemia in, prevention and correction of, by portacaval shunt (Pfeffermann et al.), 266
Parietal cell vagotomy: surgical technique, gastric acid secretion, and recurrence (editorial) (Jaffe), 284
Pathogenic, nonpathogenic to, bacteria, antibiotic resistance transfer from (Hummel, Miskell, and Altemeier), 382
PEEP (positive end-expiratory pressure), quantitative bacteriology and pathology of lung in experimental Pseudomonas pneumonia treated with (Tilson et al.), 133
Penetrating vascular injuries of thoracic outlet, operative management of (Schaff and Brawley), 182
Pentagastrin, effect of methacholine on acid and pepsin responses to, in cats with innervated and denervated fundic pouches (Svensson, Dubrasquet, and Emås), 580
Perfusion, intermittient coronary, does [it] offer greater myocardial protection than continuous aortic cross-clamping? (Levitsky et al.), 51
Pericardial effusion, another view on treatment for (letter) (Oakes et al.), 894
Pericardiectomy (letter) (Buselmeier et al.), 170; reply (Connors), 171
  more on (letter) (Kinnaert et al.), 170; reply (Connors), 171
Peritovenous shunt, reversal by: hepatorenal syndrome (Fullen), 337
pH, favorable modification by adjusting reperfusate (I). Studies on myocardial reperfusion injury (Follette et al.), 149
Phenomenon, unilateral Raynaud's, in hand and its significance (Bouhoutsos, Morris, and Martin), 547
Phosphorylation, oxidative, prevention of endotoxin-induced changes in, in hepatic mitochondria (DePalma et al.), 68
Plethysmograph, automatic electrically calibrated strain gauge, detection of deep vein thrombosis with (Barnes et al.), 219
Pneumonia, aspiration: beneficial and harmful effects of positive end-expiratory pressure (Toung et al.), 279
  Pseudomonas, experimental, treated with positive end-expiratory pressure (PEEP), quantitative bacteriology and pathology of lung in (Tilson et al.), 133
Polypeptide response, augmented gastric inhibitory, to intraduodenal glucose by exogenous gastrin and cholecystokinin (Sirinek et al.), 438

Portacaval anastomosis, effects of, on liver and brain protein synthesis in rats (Lundborg and Hamberger), 643
shunt, prevention and correction of hypocalcemia in parathyroidectomized rat by (Pfeffermann et al.), 266
Portal circulation during temporary portal vein occlusion and after portal-systemic shunt surgery, hemodynamic analysis of (Archie), 674
-systemic shunt surgery, hemodynamic analysis of portal circulation after, and during temporary portal vein occlusion (Archie), 674
vein occlusion, temporary, hemodynamic analysis of portal circulation during, and after portal-systemic shunt surgery (Archie), 674
Positive end-expiratory pressure, beneficial and harmful effects of: aspiration pneumonia (Toung et al.), 279
(PEEP), quantitative bacteriology and pathology of lung in experimental Pseudomonas pneumonia treated with (Tilson et al.), 133
Postshunt liver failure, mechanism of (Reichle et al.), 738
Primates, subhuman, some effects of Bunnell suture on otherwise uninjured tendons in (Buckman et al.), 660
Prostheses, small bifurcation, new method of creating, utilizing tubular grafts (Wilbur and Stoney), 768
Pseudomonas pneumonia, experimental, treated with positive end-expiratory pressure (PEEP), quantitative bacteriology and pathology of lung in (Tilson et al.), 133
Pulmonary adaptation to atelectasis, nature of failure of (Kersten et al.), 90
changes associated with cerebral perfusion with hypoxic blood in monkeys, significance of (Crockard et al.), 588
insufficiency, role of adrenergic stimulation in pathogenesis of (Berk et al.), 366
metastases, potential biologic consequence of anesthetic-induced immunosuppression by thiopental (Lundy, Lovett, and Conran), 254
Pulsatile buttock masses: gluteal and persistent sciatic artery aneurysms (Steele et al.), 201

R

Rabbit(s) bowel injected with Crohn's disease homogenates, production of unusual tissue reaction in (Simonowitz et al.), 211
intravenously alimented, small bowel morphology and epithelial proliferation in (Eastwood), 613
Radiation-associated hyperparathyroidism: new syndrome? (Prinz et al.), 296
Rat colon cancer model, cell surface antigens in: correlation with inhibition of tumor growth (Steele and Sjogren), 164
parathyroidectomized, hypocalcemia in, prevention and correction of, by portacaval shunt (Pfeffermann et al.), 266
Raynaud's phenomenon, unilateral, in hand and its significance (Bouhoutsos, Morris, and Martin), 547
Ream, to, or to graft? Time for reappraisal (letter) (Wittenstein), 774
Rectal injuries, devascularizing, abdominoperineal resection in treatment of (Getzen, Pollak, and Wolfman), 310
Rectum, extraperitoneal, twenty-five years of experience with radical surgical treatment of carcinoma of (Patel, Tovee, and Langer), 460
Refractory ventricular arrhythmia: role of intraoperative electrophysiological study (Moran et al.), 809
Regenerated cellulose, oxidized, effect of, on experimental intravascular infection (Dineen), 576
Renal allograft(s), primary, recipients, abnormal serum lipid patterns in (Chatterjee et al.), 655
reappraisal of role of splenectomy in children receiving (Cerilli and Jones), 510
survival, prognostic significance of active thymus-derived rosette-forming cells in: preliminary report (Kerman et al.), 607
failure, acute, mechanisms for oliguria in (Hermreck et al.), 141
reversible, following jejunoileal bypass for morbid obesity: clinical and pathological (EM) study of case (Ehlers et al.), 629
questionable value of furosemide in preventing (Lucas et al.), 314
transplant, bilateral nephrectomy or, ischemic bowel disease following (Margolis et al.), 667
temporary vascular bypass for perfusion of, during abdominal aneurysmectomy (Sterioff and Parks), 558
transplantation, clinical characteristics of lethal cytomegalovirus infection following (Simmons et al.), 537
Reperfusion injury, myocardial, studies on. I. Favorable modification by adjusting reperfusate pH (Follette et al.), 149
Resection, abdominoperineal, in treatment of devascularizing rectal injuries (Getzen, Pollak, and Wolfman), 310
Respiratory distress syndrome, role of fibrinogen degradation products in pathogenesis of (Luterman, Manwaring, and Curreri), 703
Response, delayed hypersensitivity, application in clinical surgery (Pietsch, Meakins, and MacLean), 349
Retrograde pancreatography, endoscopic (letter) (Graham), 414
Roentgenological, aggressive, and surgical approach to acute mesenteric ischemia, initial results from (Boley et al.), 848
Rosette-forming cells, thymus-derived, in renal allograft survival, prognostic significance of: preliminary report (Kerman et al.), 607

S

Saline-albumin reinfusion, paracentesis and, management of. Ascitic leak: case presentation (Quillen and Polk), 241
"Salvage," concept of, in carotid artery surgery (editorial) (Scarpa, Boltax, and Dineen), 752
Scanning, ultrasonic, in postcholecstectomy chledocholithiasis (Sapala et al.), 420
Sciatic artery aneurysms, gluteal and persistent: pulsatile buttock masses (Steele et al.), 201
Scribner shunt, conversion of, to arteriovenous fistula for chronic dialysis (Simonian et al.), 448
Secretion pancreatic, by isoproterenol, characteristics of inhibition of (Kelly, Rose, and Nahrwold), 680
in hamsters with pancreatic cancer (Reber et al.), 34
Serotonin, endogenous, in control of gastric acid secretion (Jaffe, Kopen, and Lazan), 156
Serum lipid patterns, abnormal, in primary renal allograft recipients (Chatterjee et al.), 655
Shock, enhancement of adenyl cyclase by steroid therapy in (Jones, McArdle, and Hinchey), 483
severe hemorrhagic, steroids and (Pinilla and Wright), 489
Shunt, indwelling, is [it] necessary: carotid endarterectomy (Baker, Dorner, and Barnes), 321
peritovenous, reversal by: hepatorenal syndrome (Fullen), 337
portacaval, prevention and correction of hypocalcemia in parathyroidectomized rat by (Pfeffermann et al.), 266
portal-systemic, surgery, hemodynamic analysis of portal circulation after, and during temporary portal vein occlusion (Archie), 674
Scribner, conversion of, to arteriovenous fistula for chronic dialysis (Simonian et al.), 448
selective visceral caval, effect of, on plasma lipids and cholesterol dynamids (Guzman et al.), 42
Silastic sheet, skin-covered, for newborn infants with diaphragmatic hernia, ventral hernia with (Priebe and Wichern), 569
Small bowel bypass failure, management of morbidly obese patient after (Hitchcock et al.), 356
morphology and epithelial proliferation in intravenously alimented rabbits (Eastwood), 613
Splenectomy, reappraisal of role of, in children receiving renal allografts (Cerilli and Jones), 510
Stapling devices, gastrointestinal, complications associated with use of (Wassner, Yohai, and Heimlich), 395
Stenosis, carotid artery, use of ophthalmosonometery in diagnosis of (Moore et al.), 107
Steroid(s) and severe hemorrhagic shock (Pinilla and Wright), 489
therapy, enhancement of adenyl cyclase by, in shock (Jones, McArdle, and Hinchey), 483
Streptokinase (intravenous) treatment for ergot-induced insufficiency (letter) (Ganel and Adar), 414
Subclavain, axillary, and brachiocephalic vein obstruction (Campbell et al.), 816
Superior cardiac valve replacement, tissue valve as (Angell et al.), 875
mesenteric artery, inferior mesenteric artery, and celiac axis occlusion: surgical considerations (Crawford et al.), 856
Surgeons in United States: opinions on current issues related to surgical practice (Bloom et al.), 635
Surgery and family history (editorial) (DeCosse), 750
Surgical approach, aggressive roentgenological and, to acute mesenteric ischemia, initial results from (Boley et al.), 848
Suture, Bunnell, some effects of, on otherwise uninjured tendons in subhuman primates (Buckman et al.), 660

Sympathectomy, lumbar, direct measurement of arteriovenous anastomotic blood flow after (Cronenwett and Lindenauer), 82
Sympathoadrenal, cardiorespiratory and, responses during weaning from controlled ventialtion (Kennedy, Weintraub, and Skillman), 233
Syndrome, Gardner's, diagnosis and treatment of patients with (Watne et al.), 327
hepatorenal: reversal by peritovenous shunt (Fullen), 337

T

Temporal artery catheterization for arterial access in high risk newborn (Prian), 734
Tendon(s) adhesions, postoperative, modification of, by ancrod defibrinogenation (Buckman et al.), 721
otherwise uninjured, some effects of Bunnell suture on, in subhuman primates (Buckman et al.), 660
Thiopental, anesthetic-induced immunosuppression by—pulmonary metastases, potential biologic consequence of (Lundy, Lovett, and Conran), 254
Thoracic aorta, nonpenetrating trauma to (Vasko et al.), 400
outlet, operative management of penetrating vascular injuries of (Schaff and Brawley), 182
Thoracoscopy (Radigan and Glover), 425
Thrombosis, deep vein, detection of, with automatic electrically calibrated strain gauge plethysmograph (Barnes et al.), 219
Thymus-derived rosette-forming cells, active, in renal allograft survival, prognostic significance of: preliminary report (Kerman et al.), 607
Thyroid nodule, hypofunctioning, prospective study of combined ultrasonography and needle aspiration biopsy in assessment of (Walfish et al.), 474
Tissue reaction, unusual, production of, in rabbit bowel injected with Crohn's disease homogenates (Simonowitz et al.), 211
valve as superior cardiac valve replacement (Angell et al.), 875
Tracheoesophageal fistula, esophageal atresia and, motor function of esophagus after repair of (Duranceau et al.), 116
Transplant donor nephrectomy, volvulus of cecum following (Etheredge, Martz, and Anderson), 764
renal, bilateral nephrectomy or, ischemic bowel disease following (Margolis et al.), 667
temporary vascular bypass for perfusion of, during abdominal aneurysmectomy (Sterioff and Parks), 558
Transplantation, hepatocellular, in acute liver failure (Sutherland et al.), 124
renal, clinical characteristics of lethal cytomegalovirus infection following (Simmons et al.), 537
Trauma, nonpenetrating, to thoracic aorta (Vasko et al.), 400
-provoked atheromas, pathogenesis and prevention of (DePalma et al.), 429
Tubular grafts, volvulus of cecum following transplant donor nephrectomy (Wilbur and Stoney), 768
Tumor(s), benign hepatocellular (Guzman et al.), 495
bilateral Wilms', evolution of surgical treatment of (Altman et al.), 760
mesenchymal solid, of omentum and mesentery: report of four cases (Weinberger and Ahmed), 754

U

Ulcer(s), duodenal, highly selective vagotomy in treatment of, in teaching hospital. One-to-three year follow-up relating results to number of operating surgeons, their surgical experience, and training conditions (Solhaug, Bjerkeset, and Halvorsen), 248
venous, varicose veins and, relative importance of incompetent communicating veins in production of (Burnand et al.), 9
Ultrasonic scanning in postcholecystectomy choledocholithiasis (Sapala et al.), 420
Ultrasonography and needle aspiration biopsy, combined, prospective study of, in assessment of hypofunctioning thyroid nodule (Walfish et al.), 474
Umbrella filter, intracaval breakage of (Cabrera and Macht), 555
United States, surgeons in: opinions on current issues related to surgical practice (Bloom et al.), 635
Upper gastrointestinal series (UGIS), routine preoperative, in patients with biliary tract disease: plea for more selectivity (Max and Polk), 334
Urinary diversion, continent reservoir for: gastric bladder (Rudick, Schonholz, and Weber), 1

V

Vagotomy, highly selective, in treatment of duodenal ulcer in teaching hospital. One-to-three year follow-up relating results to number of operating surgeons, their surgical experience, and training conditions (Solhaug, Bjerkeset, and Halvorsen), 248
parietal cell: surgical technique, gastric acid secretion, and recurrence (editorial) (Jaffe), 284
Valve, superior cardiac, replacement, tissue valve as (Angell et al.), 875
tissue, as superior cardiac valve replacement (Angell et al.), 875
Varicose vein(s) and venous ulcers, relative importance of incompetent communicating veins in production of (Burnand et al.), 9
surgery, lymphatic disruption in (van Bellen et al.), 257
Vascular anastomosis, extracranial-to-intracranial, for occlusive cerebrovascular disease: experience in 110 patients (Popp and Chater), 648
bypass, temporary, for perfusion of renal transplant during abdominal aneurysmectomy (Sterioff and Parks), 558
endoscopy: useful tool or interesting toy (Towne and Bernhard), 415
injuries, penetrating, of thoracic outlet, operative management of (Schaff and Brawley), 182
Veins. (*See* specific vein)
thrombosis, deep, detection of, with automatic electrically calibrated strain gauge plethysmograph (Barnes et al.), 219
varicose, surgery, lymphatic disruption in (van Bellen et al.), 257
Velocity wave form analysis, use of, in diagnosis of carotid artery occlusive disease (Rutherford, Hiatt, and Kreutzer), 695
Vena cava, inferior, end-to-side anastomosis of mesenteric vein to, in treatment of glycogen storage disease: case report (Esato et al.), 287
Venous grafts, autogenous, ten years later (DeWeese and Rob), 775
Ventilation, controlled, cardiorespiratory and sympathoadrenal responses during weaning from (Kennedy, Weintraub, and Skillman), 233
Ventral hernia with skin-covered Silastic sheet for newborn infants with a diaphragmatic hernia (Priebe and Wichern), 569
Ventricular arrhythmia, refractory: role of intraoperative electrophysiological study (Moran et al.), 809
pacing, temporary, following cardiac surgery, critical look at (Curtis et al.), 888
Volvulus of cecum following transplant donor nephrectomy (Etheredge, Martz, and Anderson), 764
von Recklinghausen's neurofibromatosis, operative management of, in children, with special reference to lesions of head and neck (Adkins and Ravitch), 342

W

Wilms' tumor, bilateral, evolution of surgical treatment of (Altman et al.), 760
